|-----| **EDUCATION** |-----|

Princess Margaret Secondary School, Surrey

2020 - 2025

Grade 12 Honor Roll Student with a 4.0 GPA since 2020

- Participant in Symposia on the Holocaust Annual Conference
- Learned about advanced business concepts, created a viable business, pitched it to a panel of entrepreneurs, and qualified for finals in a competition in the YELL program. Also, offered a position as a volunteer at Surrey Urban Mission Homeless Shelter by their CEO at the challenge.

|-----| **EXPERIENCE** |-----|

C4T Teacher and Management Member

July 2023 - Present

Code 4 Tomorrow Non-Profit Organization

- Taught students Python at beginner, intermediate, and advanced levels.
- Made complex concepts understandable through effective communication and creative lesson plans.
- Evaluated progress and gave constant feedback to maintain a supportive learning environment.
- Honed skills in programming, teaching, and communication.
- Organized and scheduled classes, managed logistics, and monitored Google Classroom and student pairings.

SFU Lab Assistant

May 2024 - Present

Advanced Manufacturing and Testing Lab

- Assisted in developing pressure sensor mats for mapping disabled limbs, aimed at creating affordable, comfortable, and reliable prosthetics.
- Worked with pressure sensors, new flexible mat technologies, and utilized 3D printing to reduce costs.
- Assisted in programming and building a garden weed removal robot using object detection.
- Contributed to developing a new conductive organic ink that could be used to print circuits.

Membership Experience Representative

Sept 2023 - Present

YMCA of Greater Vancouver

- Trained in membership and program sales and successfully sold numerous memberships.
- Trained in outreach and marketed memberships outside the facility in the local community.
- Facilitated smooth onboarding for new members via comprehensive facility tours.
- Delivered outstanding customer service and maintained a safe and clean environment.

LeoCraft Design Team Member

Sept 2023 - Present

30th Annual NASA HERC Challenge Participant

- Worked in a team to design a small car-sized rover, a homemade flashlight, and an Arduino system.
- Managed the project website at leocraft.ca, keeping it up-to-date and informative.
- Acted as the team photographer to update the website and social media.
- Played a role in winning a STEM Engagement award by helping write STEM Engagement reports and supporting educational outreach and community activities.

Beaverbrook Vimy Prize Recipient

August 2024

The Vimy Foundation Educational Program Alumni

- Selected as one of only 14 recipients of this prestigious award across Canada, the UK, and France as the only winner representing BC, recognizing leadership and community service.
- Traveled to Europe to learn from historians and experts about World War I & II history, the Wars' modern-day impact, peace, and remembrance.
- Selected as one of four students to represent the Vimy Foundation and Canada at the Menin Gate ceremony among the 14 young leaders selected across three countries.
- Organize future Vimy Foundation immersive educational programs and other events as a member of the Vimy Foundation Alumni Council.

SHAD Canada Alumni

July 2024

Wilfred Laurier University Campus

- Engaged in a month-long enrichment program focused on STEAM (Science, Technology, Engineering, Arts, and Math) and entrepreneurship.
- Collaborated with peers on a project to develop innovative solutions to real-world problems such as green, sustainable, and affordable energy solutions.
- Attended workshops and lectures led by experts in various fields to gain new skills and insights.
- Built strong teamwork and leadership abilities through group challenges and activities.

UBC Lab Assistant

April 2024 - May 2024

UBC Department of Physics & Astronomy

- Utilized CAD, 3D printing, laser cutting, and water jetting to create custom creative solutions and tools for organizing a robotics lab and course.
- Designed wall mounts and drawer organizers tailored to specific tools, using materials like PLA, wood, acrylic, aluminum, and steel.
- Assisted in organizing a STEM summer camp focused on activities for elementary students.
- Collaborated with undergraduate students in both robotics and outreach labs.

|-----| **ACHIEVEMENTS** |-----|

NASA HERC STEM Engagement Award

2024

30th Annual NASA HERC Challenge

City of Surrey Certificate of Recognition

2024

Office of The Mayor for the Beaverbrook Vimy Prize
